Re: Consent to disclosure of AVECC's non-public information

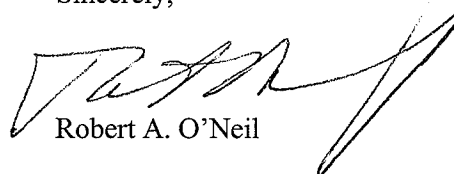

Dear Mr. Kays:

Arkansas Valley Electric Cooperative Corporation ("AVECC") currently purchases full requirements electric service from Oklahoma Gas and Electric Company ("OG&E") under a power supply agreement that provides for the delivery of power of energy to AVECC's delivery points. AVECC and OG&E anticipate entering a new, unbundled, power supply agreement. Under such an agreement, AVECC would take transmission service pursuant to the Southwest Power Pool, Inc. Open Access Transmission Tariff.

Under the Standards of Conduct rules of the Federal Energy Regulatory Commission ("Commission"), a transmission provider is prohibited from disclosing non-public transmission information to a transmission provider's marketing function employees. 18 C.F.R. § 358.2(b) (2010). However, a transmission customer may voluntarily permit the transmission provider to disclose the customer's "non-public information to the transmission provider's marketing function employees." 18 C.F.R. § 358.7(c) (2010).

Pursuant to Section 358.7(c) of the Commission's regulations, I am authorized to state that AVECC hereby voluntarily consents to allow OG&E's transmission function personnel to disclose AVECC's non-public information to OG&E's marketing function employees.

Sincerely,

Robert A. O'Neil
